The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "glit edge" investments. They do not depend upon the financial responsibility of in-dividuals or corporations for their stability and are exempt from taxation as personal property. We can supply such invest-ments in amounts from \$500 upward. Send for booklet, "Concerning Loans and In-vestments."

Galluses.

It is claimed that the galluses are disappearing as a feature of the apparel. They are not artistic, and certainly not their traditional daily vacation, as lunch- and fitted it sets so neatly on the hips The city ...ghs and naphtha lamps all eon, the aperitif hour, dinner and fete that it needs no support; and therefore, lighted by thirty minutes after sunset; days. They work, not to amass millions the presence of suspenders indicates that days. They work, not to amass millions the presence of suspenders indicates that and die in harness, but to save enough to the man's apparel is the work of a cheap give their daughter her dot, without tailor, which is certainly not aristocratic. If suspenders are to go, there is a better income left to retire before they are too reason than this, and that is in the trick of the trade, that leaves a weak point in the suspenders, a piece that is always breaking and annoying the wearer until his patience is gone. Then, he gets "Have you heard of the civil service examination for ambassadors?" inquired the man with the fur on his overcoat collar.

"Have you heard of the civil service examination for ambassadors?" inquired the man with the fur on his overcoat collar. the kidlike adjustment about the hips is "Yes. They ask 'em one question." impossible. There is no need to speculate about this—a hand-me-down and a pair of galluses are the glad recourse of the greater humanity.
